

Robin Page

President

I have been a **small business owner** for 30 years.

My son has a severe mental illness and is a resident at Iris Place™.

In 2008, I was in the middle of a family crisis and knew I needed education. My church HPUMC just started a program called NAMI's Family-to-Family. It was exactly what I needed, packed with information and resources. That's where I found Iris Place™.

I knew right then, **it was the blessing we needed**. I wanted a place where he would **fit in, live independently with friends and have fun things to do**.

It's been **life-changing** for our family and the residents. There's nothing like Iris Place™ anywhere, it's centered around **family, support and love**. Iris Place™ II backs up to Iris Place™, they will already have built-in friends. **My dream is to build Iris Place™ II, also we can help more people!** You will be amazed too!
